Carbon Sinks

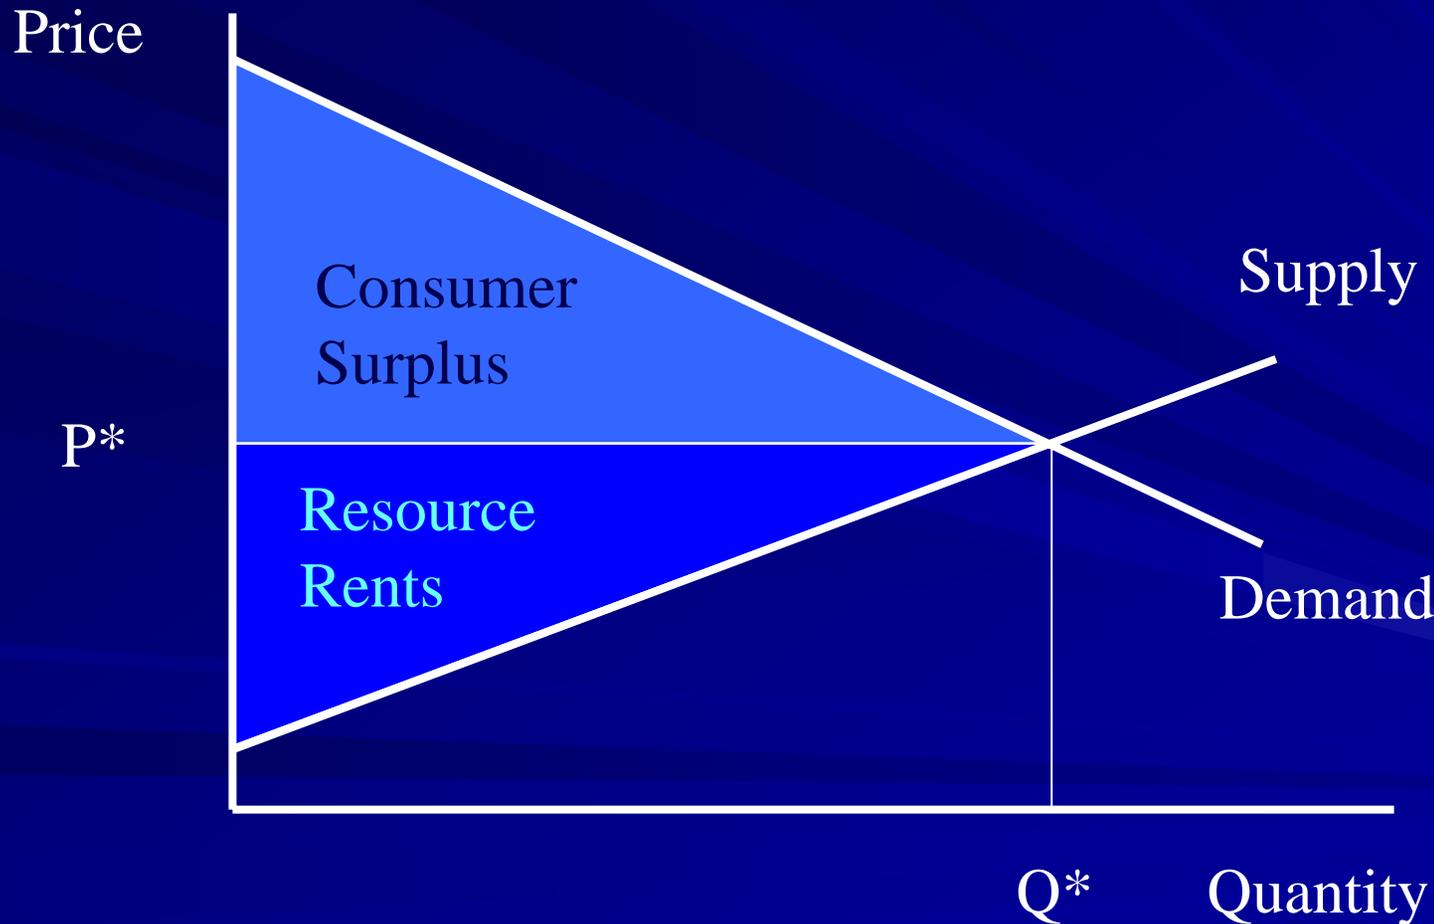

Model Structure

Model Structure

Objective Function

Surplus Maximization

Land Supply

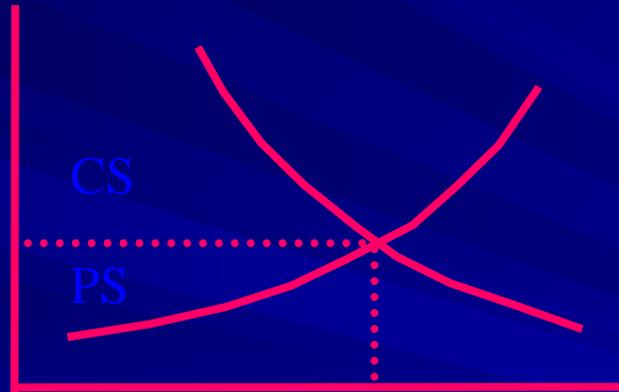

Forest Inventory

Processing Demand

Water Supply

Implicit Supply and Demand

Domestic Demand

Labor Supply

Feed Demand

Animal Supply

National Inputs

Import Supply

Export Demand

Spatial Resolution

- Soil texture
- Stone content
- Altitude levels
- Slopes
- Soil state
- Political regions
- Ownership (forests)
- Farm types
- Farm size
- Many crop and tree species
- Tillage, planting irrigation, fertilization harvest regime

EUFASOM Dynamics

- 5 (to 20) year time steps
- State of forests (and soil organic matter)
- Technical progress
- Demand & industry growth
- Resource and global change
- Policy scenarios

State of the Art

- Enormous flexibility (resolve acc. needs)
- Index notation
 - millions of data, variables, and equations with sparse programming statements
 - ensures consistency (model development)
- Extensive generic equation checks (30 checks per equation)
- Systematic solution analysis (symptom to cause)

Positive Variables

RESOURCE_VAR (PERIOD,REGION,RESOURCE)

FOREST_VAR (PERIOD,REGION,SOILTYPE,SOILSTATE,SPECIES,OWNER,AGE,FORTECH)

PEREN_VAR (PERIOD,REGION,SOILTYPE,SOILSTATE,SPECIES,FARM,AGE,CROPTECH)

CROP_VAR (PERIOD,REGION,SOILTYPE,SOILSTATE,SPECIES,FARM,CROPTECH)

LIVE_VAR (PERIOD,REGION,ANIMAL,LIVETECH)

FEED_VAR (PERIOD,REGION,ANIMAL,PRODUCT,FEEDTECH)

ECO_VAR (PERIOD,REGION,SOILTYPE,SOILSTATE,ECOTECH)

PROCESS_VAR (PERIOD,REGION,PROCTECH)

LUC_VAR (PERIOD,REGION,SOILTYPE,SPECIES,CHANGE)

DEMAND_VAR (PERIOD,REGION,PRODUCT)

SUPPLY_VAR (PERIOD,REGION,PRODUCT)

TRADE_VAR (PERIOD,REGION,REGION,PRODUCT)

Equations

OBJECTIVE_EQU

RESOURCEBAL_EQU (PERIOD,REGION,RESOURCE)

RESOURCEMAX_EQU (PERIOD,REGION,RESOURCE)

SOILSTATE_EQU (PERIOD,REGION,SOILTYPE,SOILSTATE)

FORINVENT_EQU (PERIOD,REGION,SOILTYPE,SOILSTATE,SPECIES,OWNER,AGE,FORTECH)

LUC_EQU (PERIOD,REGION,SOILTYPE,SPECIES,CHANGE)

LUCLIMIT_EQU (PERIOD,REGION,SOILTYPE,SPECIES,CHANGE)

STOCK_EQU (PERIOD,REGION,STOCK)

EMIT_EQU (PERIOD,REGION,SUBSTANCE)

PRODUCTBAL_EQU (PERIOD,REGION,PRODUCT)

MINFEED_EQU (PERIOD,REGION,ANIMAL,NUTRIENT)

MAXFEED_EQU (PERIOD,REGION,ANIMAL,NUTRIENT)

Data

FOREST_DATA (PERIOD,REGION,SOILTYPE,SOILSTATE,SPECIES,FARM,AGE,ALLTECH,ALLITEM)

PEREN_DATA (PERIOD,REGION,SOILTYPE,SOILSTATE,SPECIES,FARM,AGE,ALLTECH,ALLITEM)

CROP_DATA (PERIOD,REGION,SOILTYPE,SOILSTATE,SPECIES,FARM,ALLTECH,ALLITEM)

ECO_DATA (PERIOD,REGION,SOILTYPE,SOILSTATE,ALLTECH,ALLITEM)

LIVE_DATA (PERIOD,REGION,ANIMAL,ALLTECH,ALLITEM)

FEED_DATA (PERIOD,REGION,PRODUCT,ALLTECH,ALLITEM)

PROCESS_DATA (PERIOD,REGION,ALLTECH,ALLITEM)

PRODUCT_DATA (PERIOD,REGION,PRODUCT,ALLITEM)

MARKET_DATA (PERIOD,REGION,ALLITEM,SDTYPE,SDITEM)

TRADE_DATA (PERIOD,REGION,REGION,PRODUCT,ALLITEM)

RESOURCE_DATA (PERIOD,REGION,ALLRESOURCE,SDITEM)

STOCK_DATA (PERIOD,REGION,PRODUCT,ALLITEM)

LUC_DATA (PERIOD,REGION,SOILTYPE,SPECIES,ALLCHANGE,ALLITEM)

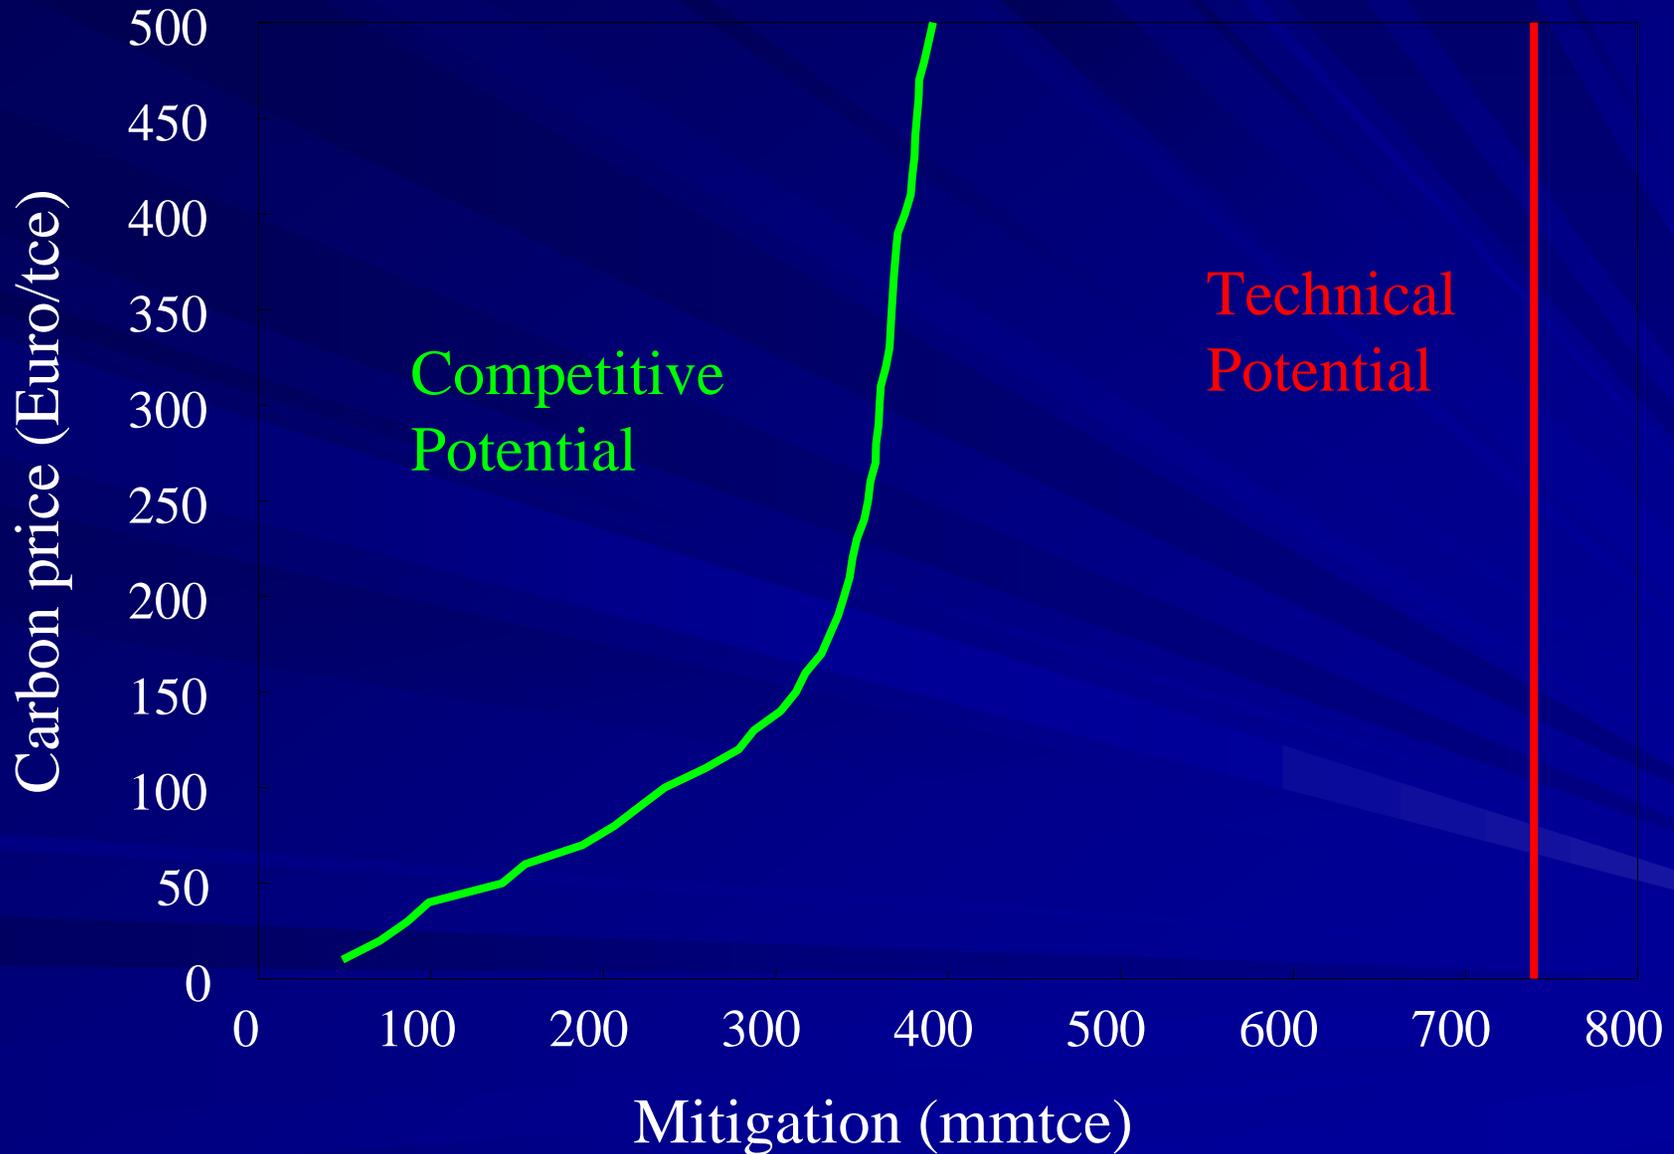

Pre-Solution Analysis

- Identifies structural errors
 - Missing data
 - Illegal data
 - Wrong signs
- More than 30 general variable and equation checks

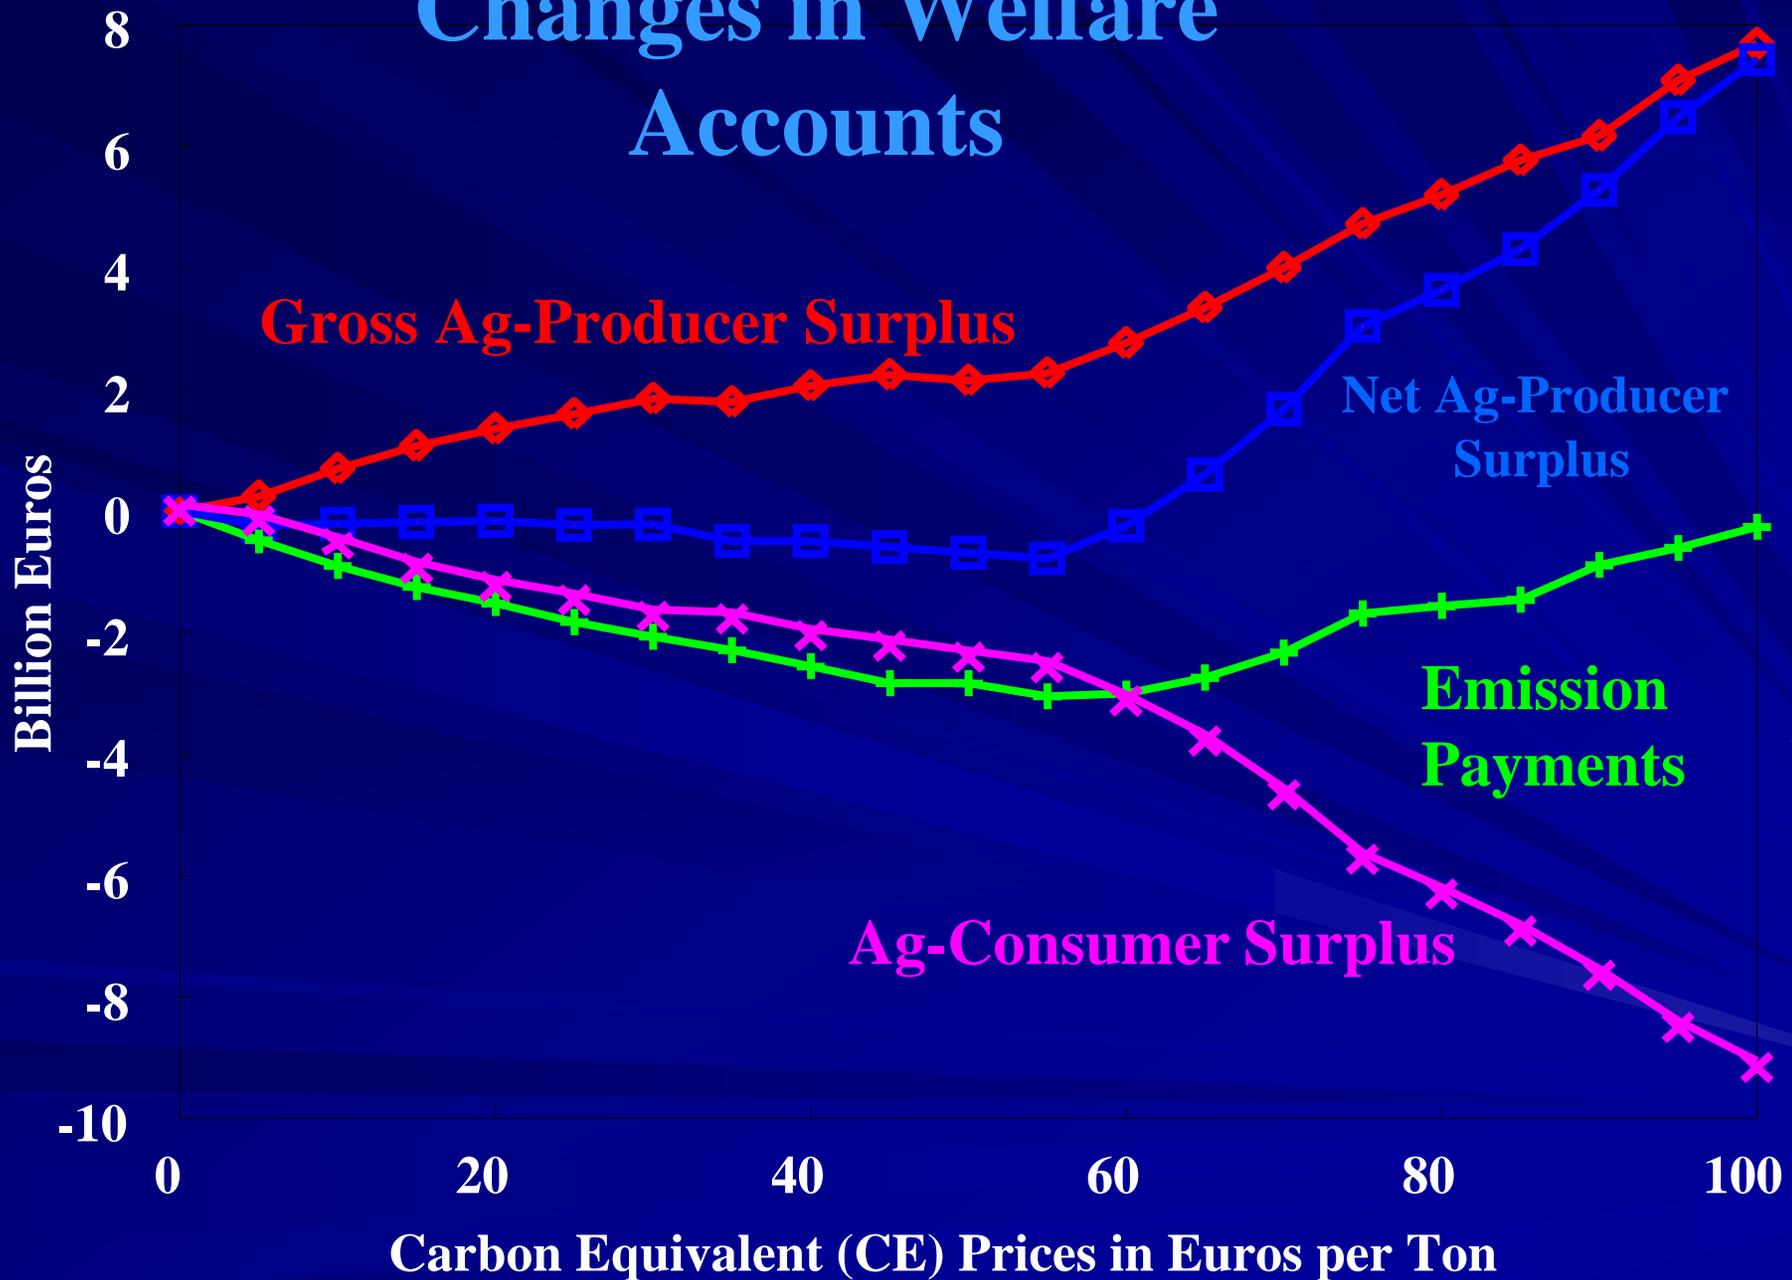

Crop Technology Data Base

| Region | Altitud | Soil | Farm | Rotation | Water | Tillage | Fertilz | Residue | Item | Unit | Value |
|--------|---------|------|------|----------|-------|---------|---------|---------|---------|----------|-------|
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Wheat | dt/ha/y | 50 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | S-Beat | dt/ha/y | 200 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Straw | dt/ha/y | 50 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Labor | hr/ha/y | 30 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Land | ha/ha/y | 1 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Diesel | l/ha/y | 40 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Costs | Eur/ha/y | 300 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Soil-C | kg/ha/y | 50 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | Erosion | kg/ha/y | 15 |
| Poland | 0-300 | Sand | ES3 | W-W-S | Irrig | Conv. | Basic | Basic | NO3-L | kg/ha/y | 20 |

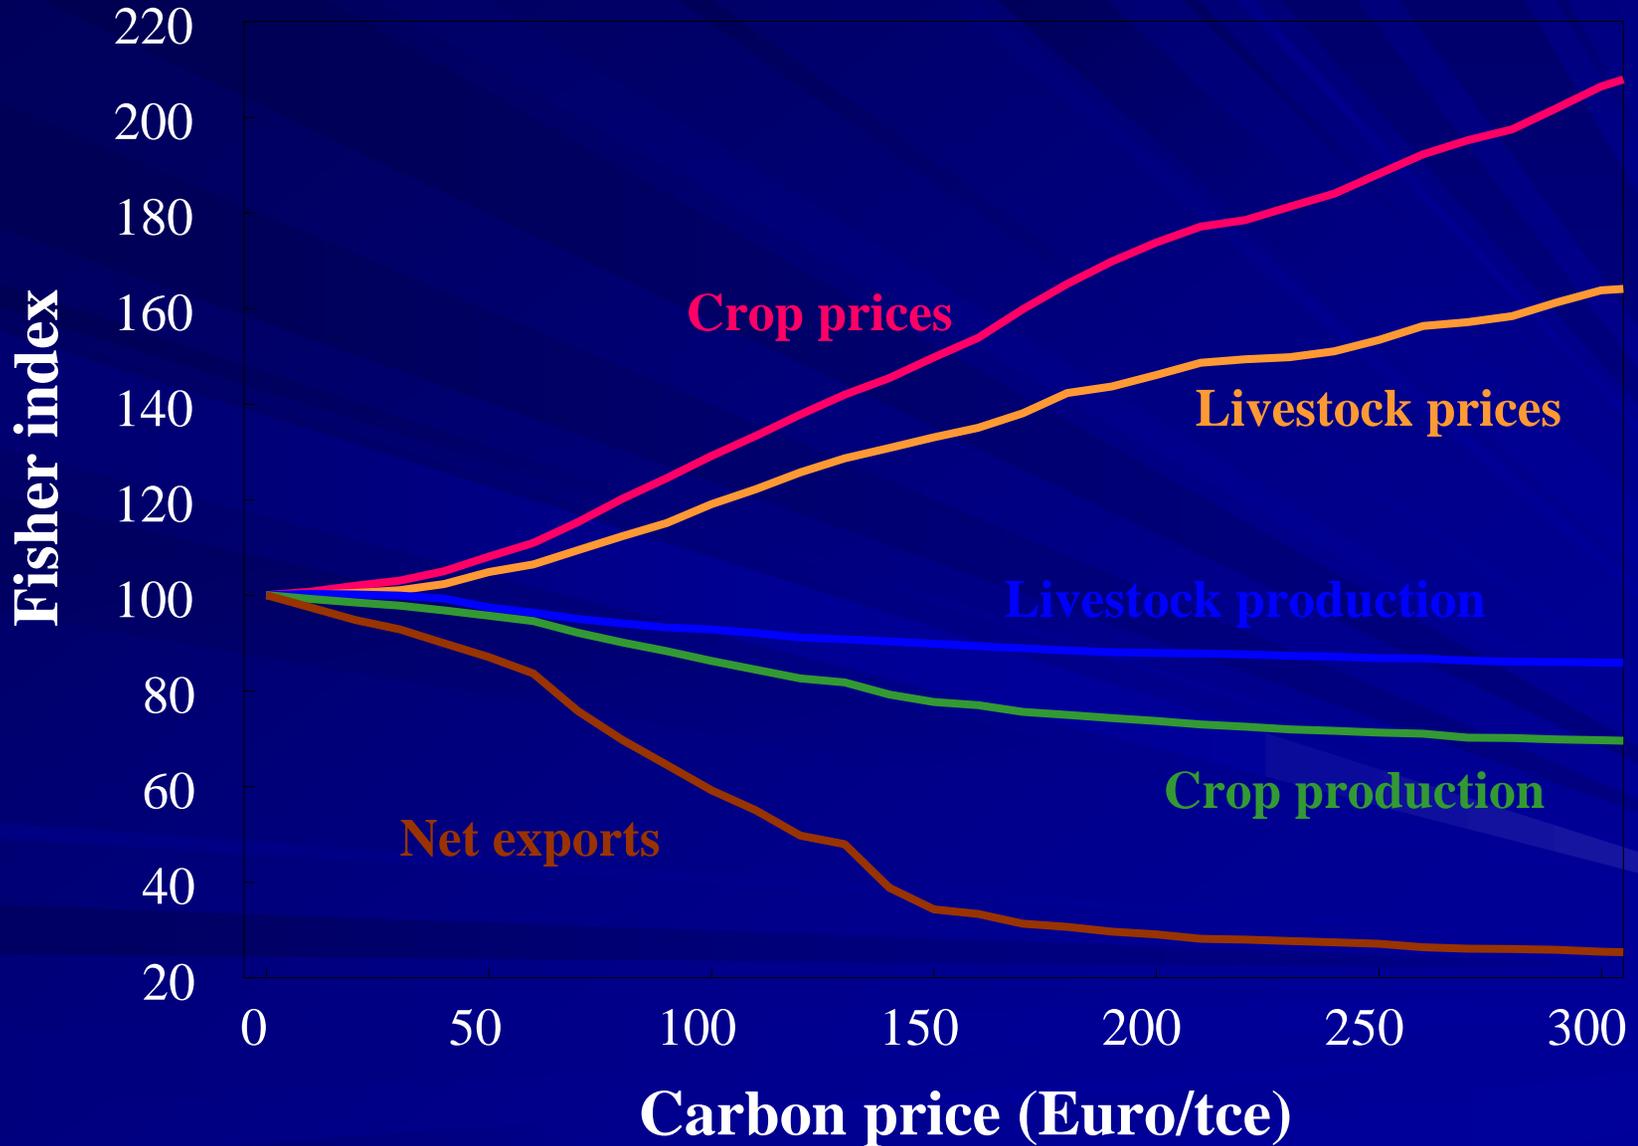

Mitigation Potentials

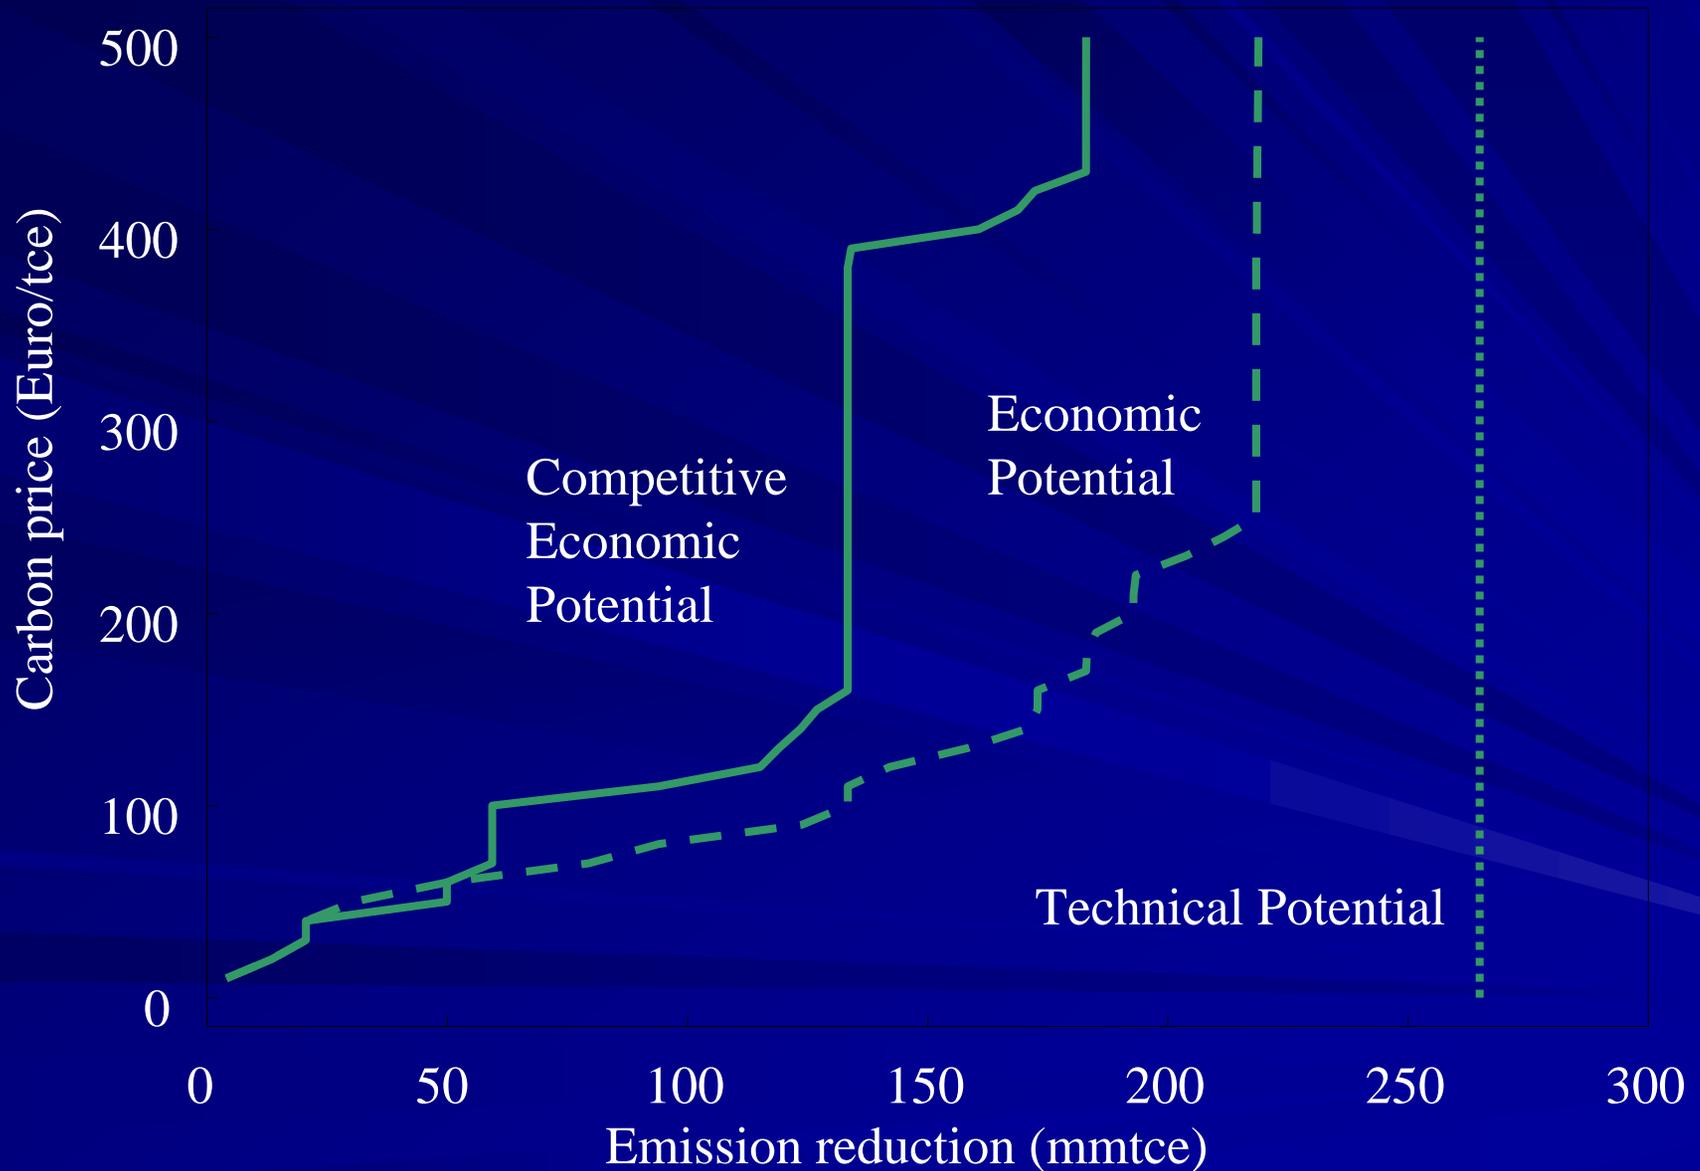

Changes in Welfare Accounts

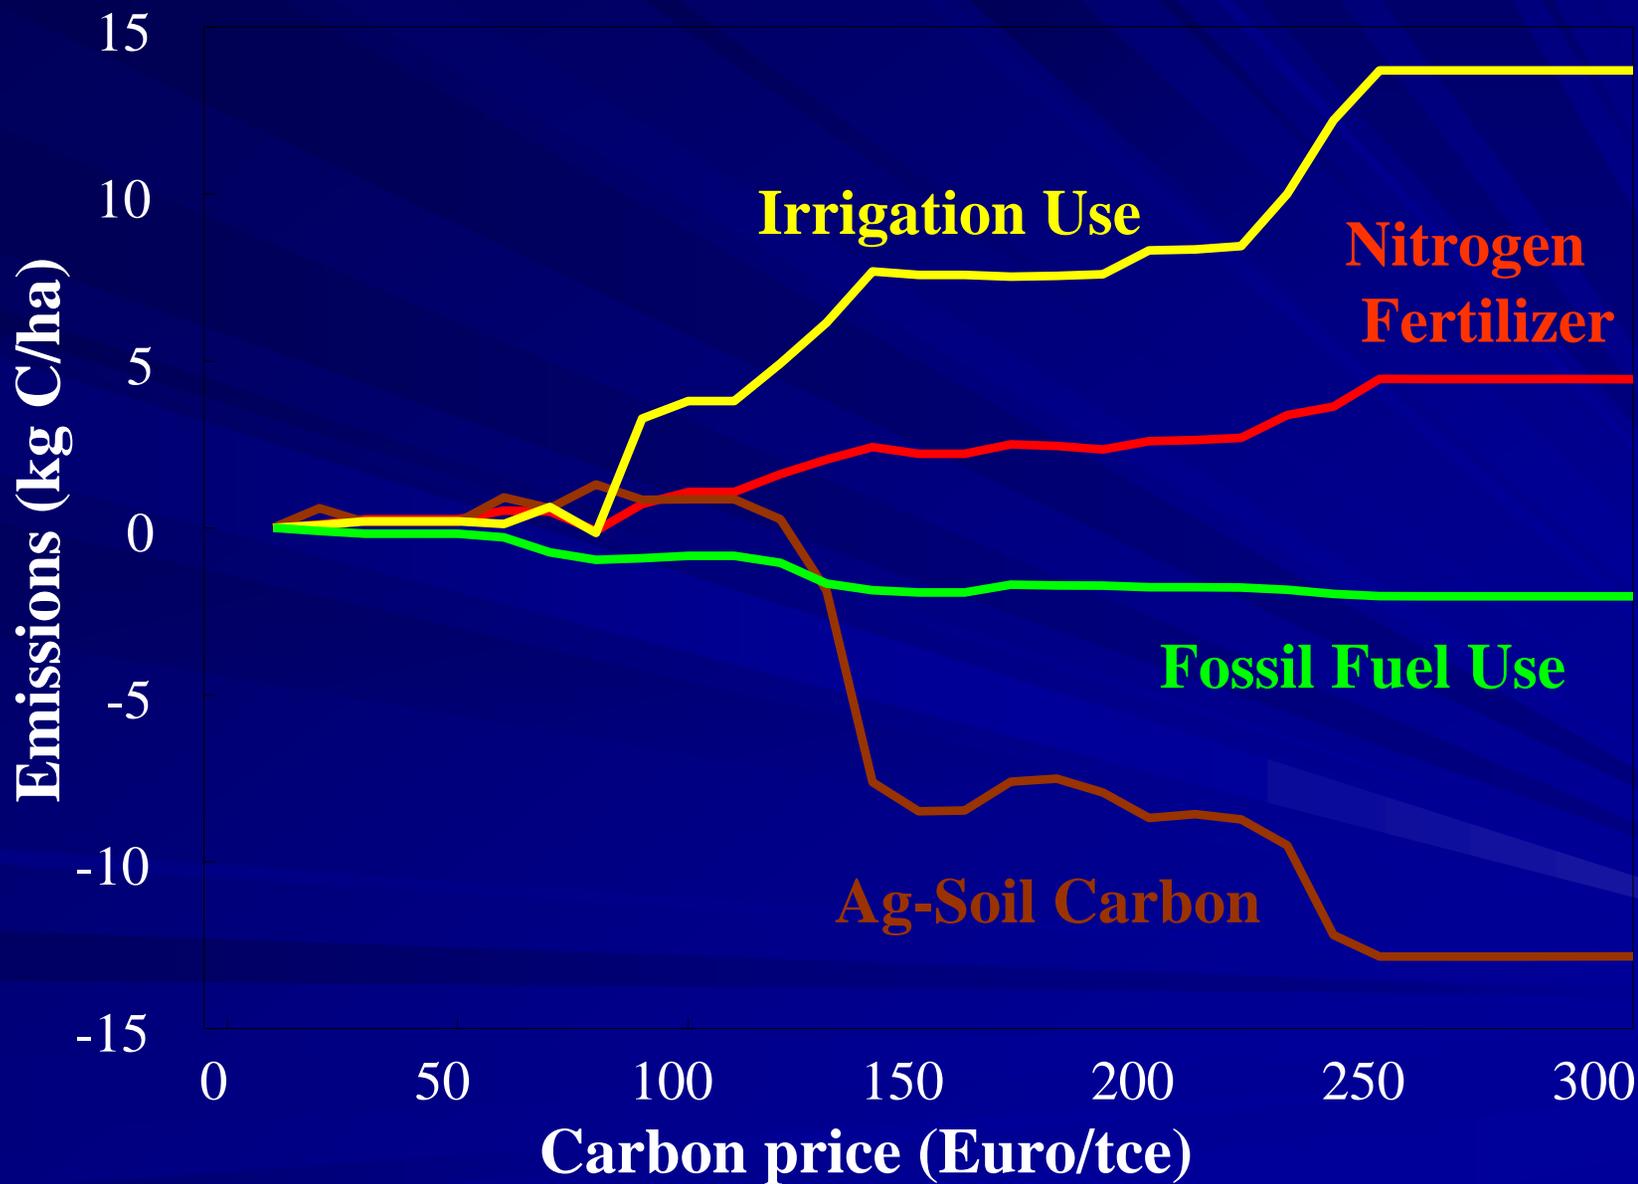

GHG Mitigation and Markets

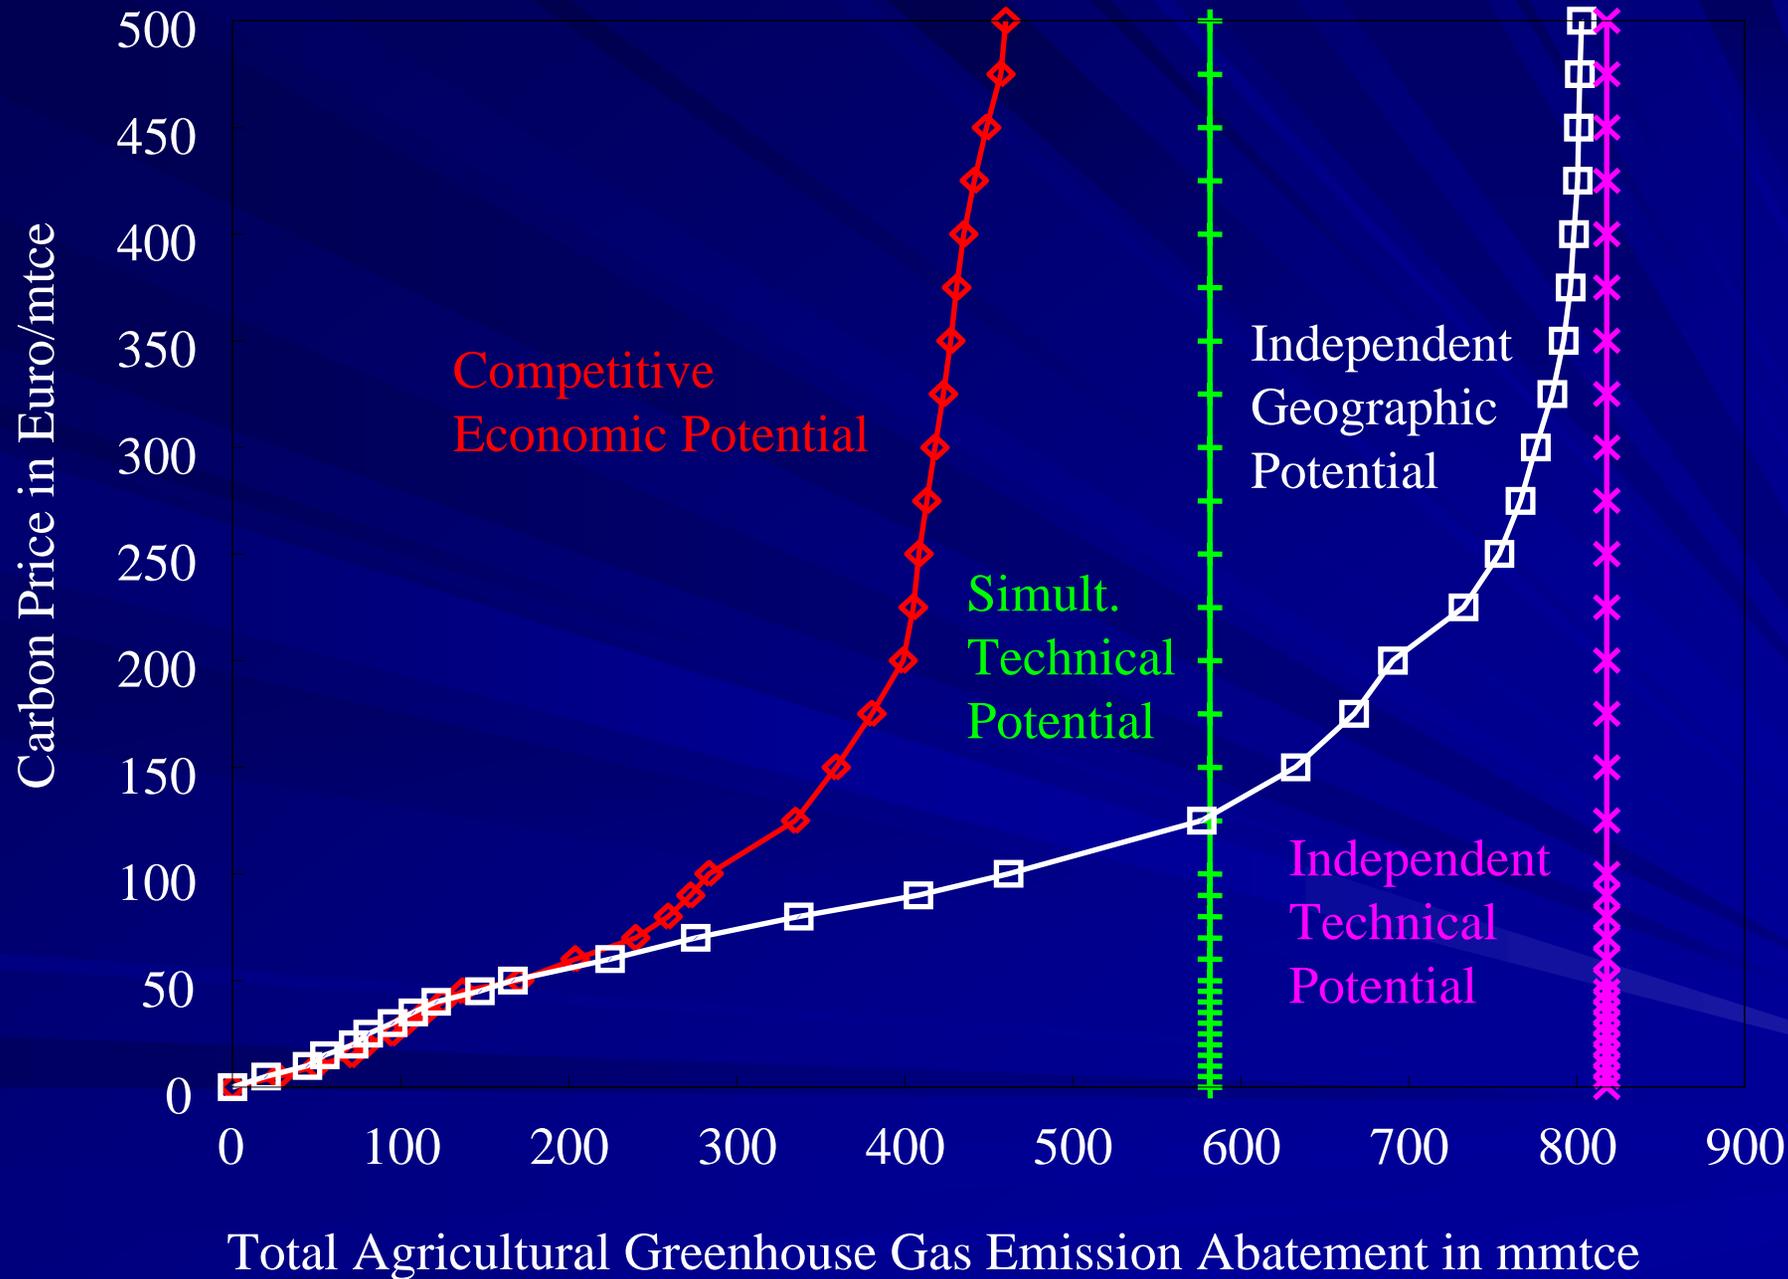

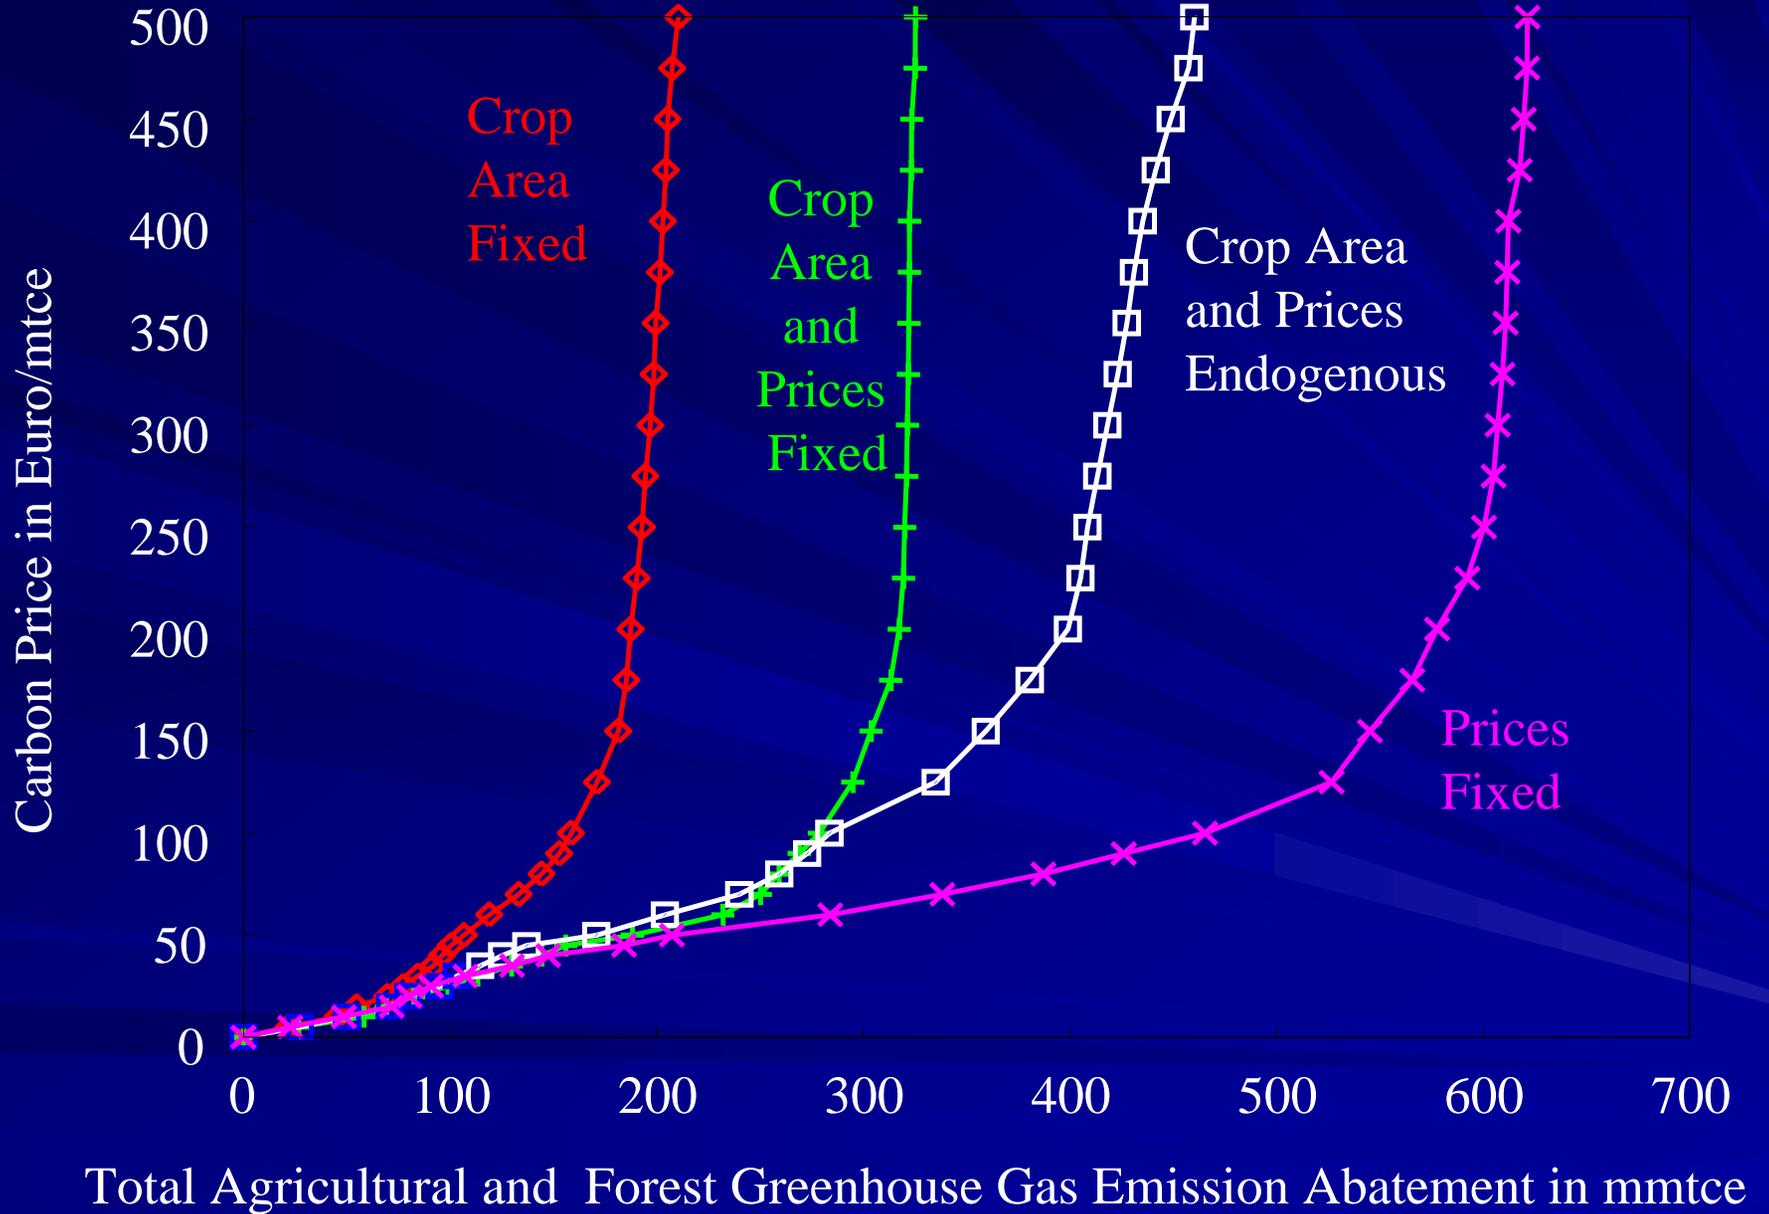

Afforestation Potentials

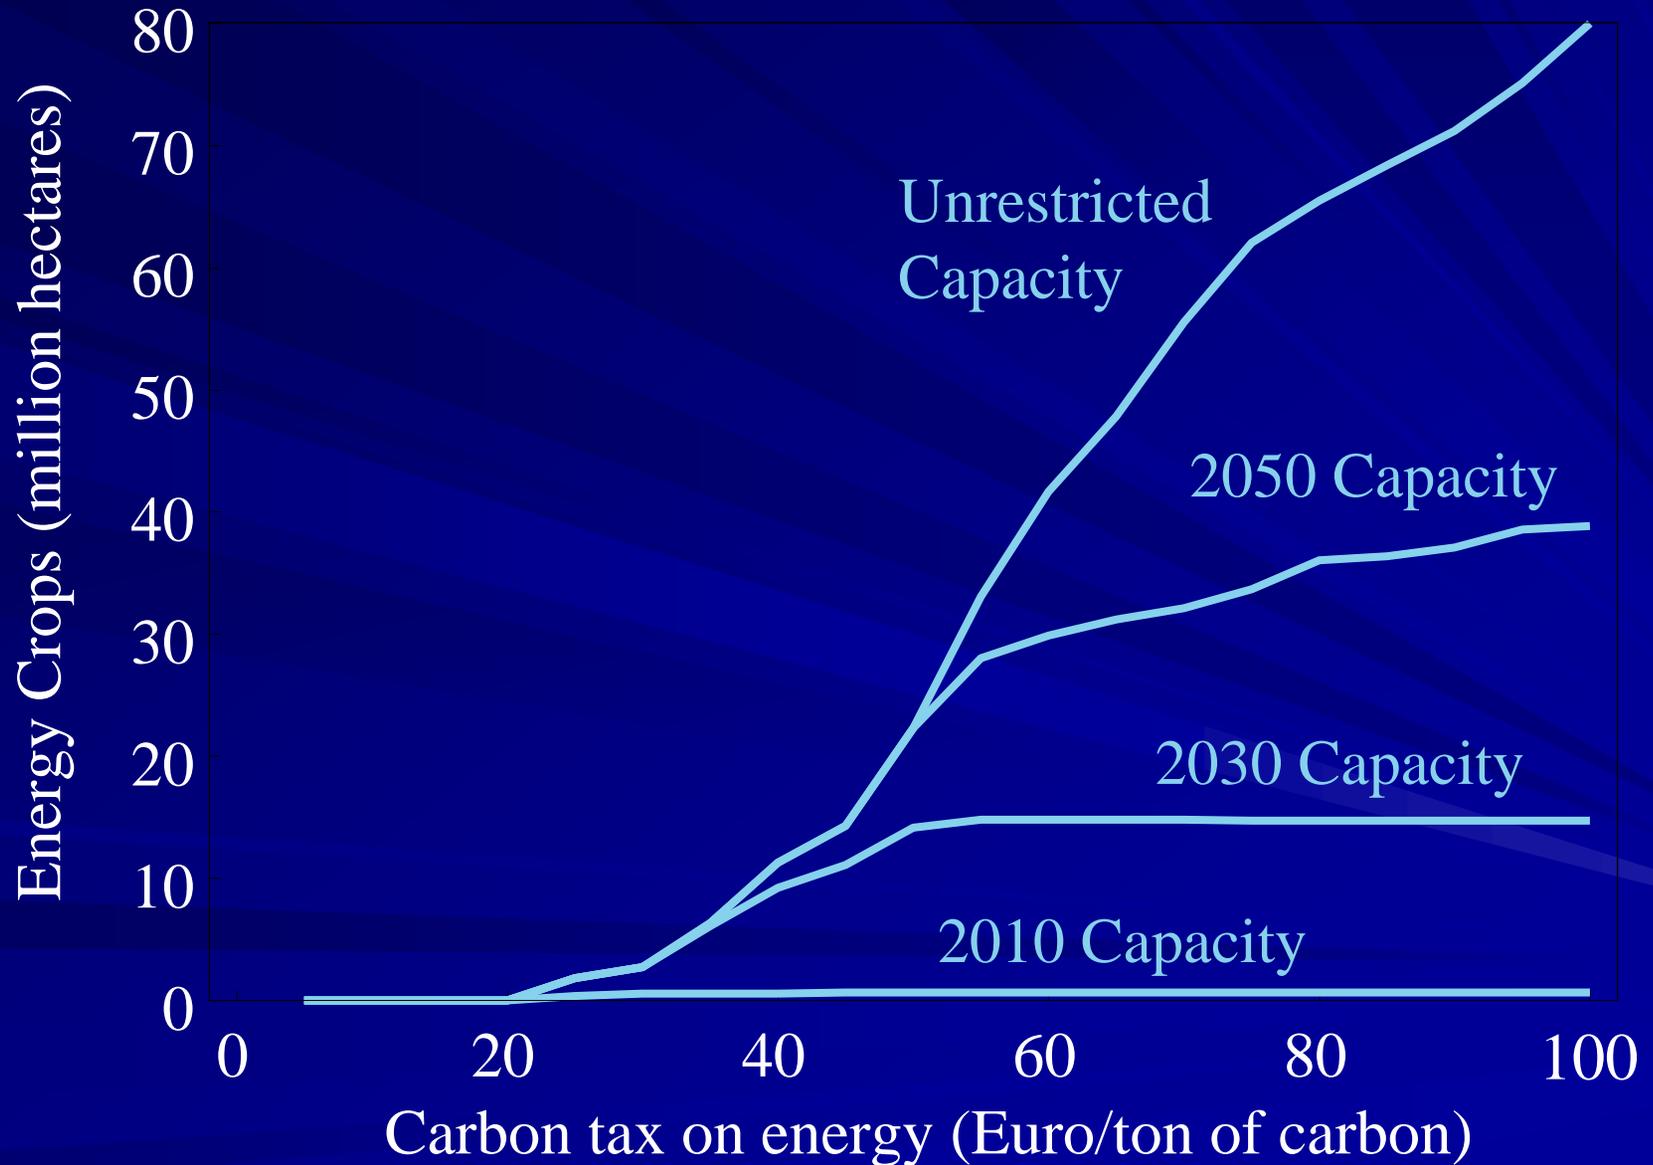

Forest Policy: Crop Emissions

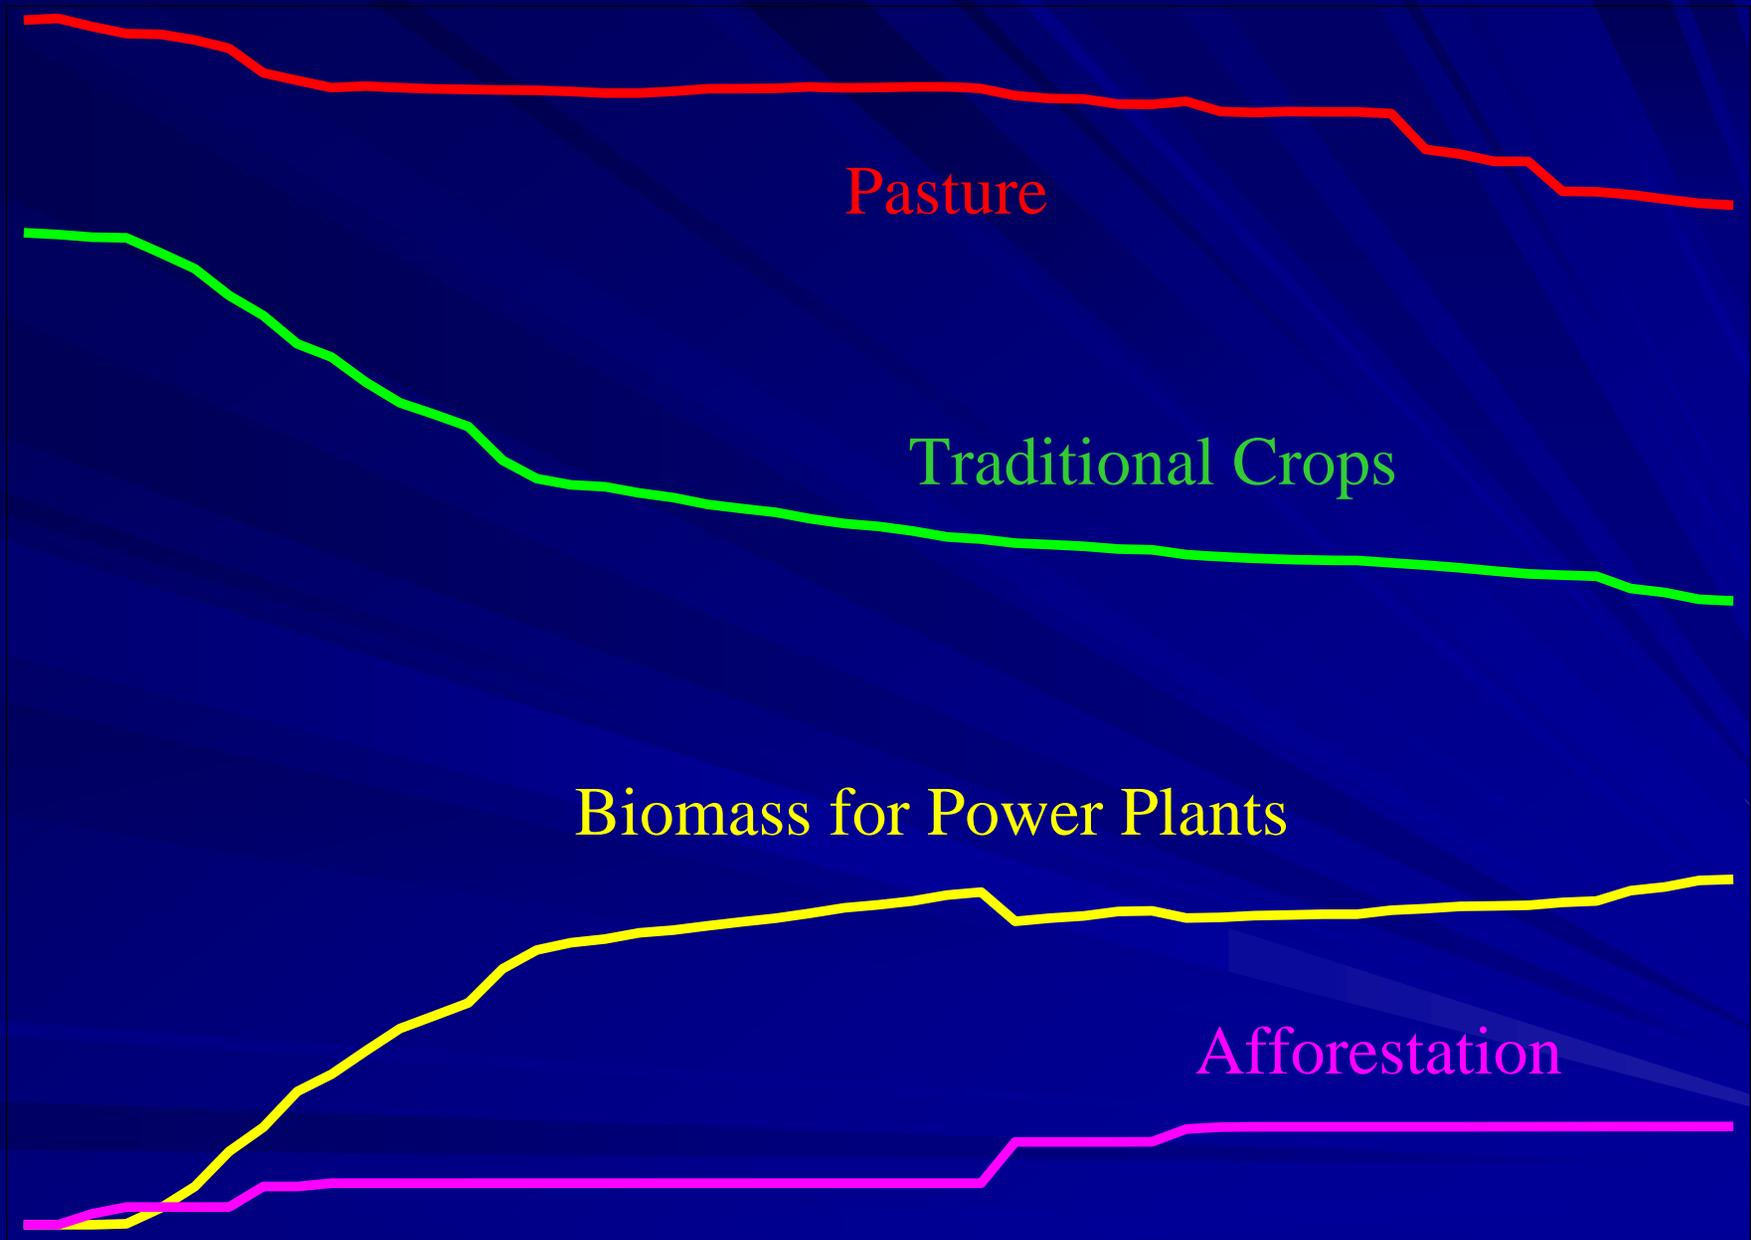

Power Plant Biomass Supply

Land Allocation

Pasture

Traditional Crops

Biomass for Power Plants

Afforestation

Carbon Tax

Outlook

- Analysis of major FASOM results
- Downscaling (EFEM, AROPAJ)
- Upscaling (GAINS, MESSAGE)

Thanks
